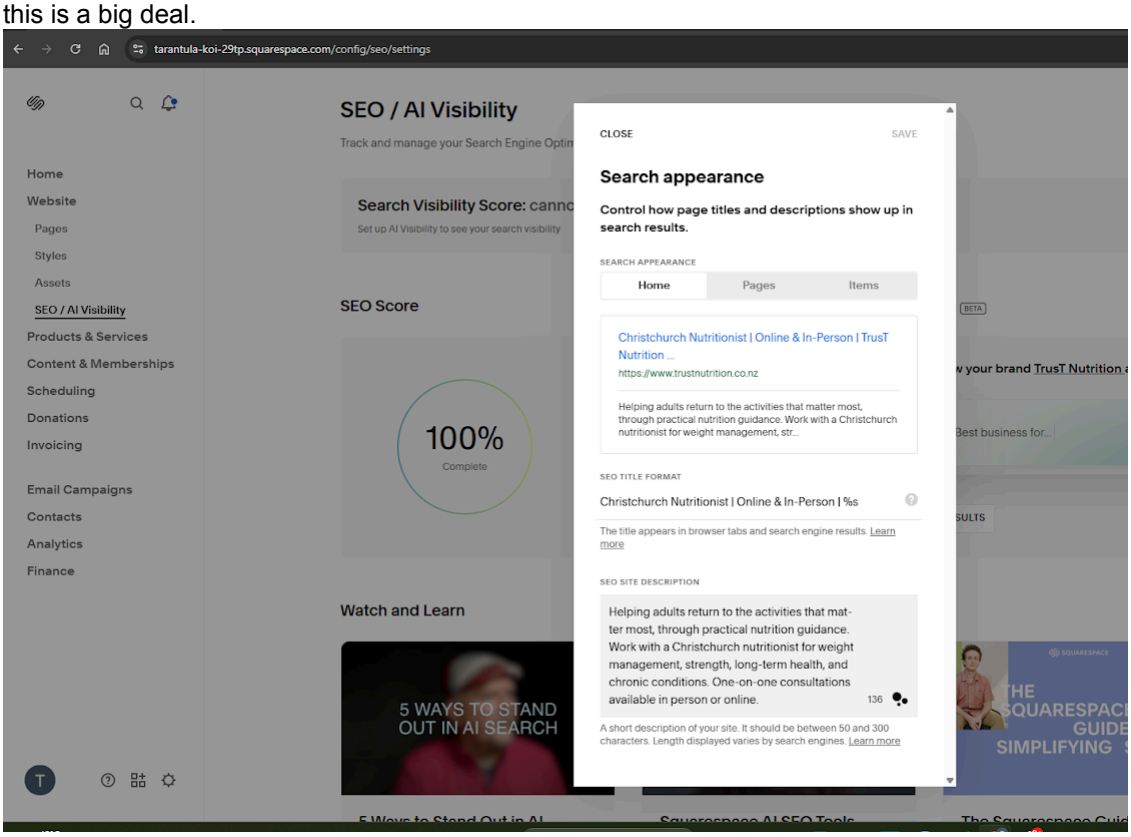
Hi Lewis,

OK I have made a few changes and I'm hoping I did alright 😀

I made the setmore link and added it to a few places on the website - but should still change on the services pages etc instead of the link to form.

I changed the site SEO / AI visibility because it was arthritis focussed - I don't know how I did with this and I feel like this is a big deal.



I tried to change the H1 to something better, and copy, on the landing page. I'm no designer though so it would be cool if you can give your opinion on how it looks, and I just used chatGPT in a hurry so I don't know how good it is...

BTW vision and mission statements are as follows:
Vision: TrusT Nutrition and Movement helps adults living with chronic illness return to the activities that matter most.
and
Mission: TrusT Nutrition and Movement supports adults living with chronic illness through personalised nutrition guidance and tailored exercise support, working alongside them to strengthen mobility, independence, and confidence.

I don't know if that will help you find a bit of direction for the site - I am still studying Clinical Exercise physiology though so we can't quite claim it all, but it is the direction we are going in.
However, I do fear that having too much emphasis on chronic illness might scare away other clients at this stage. I do have connections with Snap fitness so their members are mostly looking to lose weight or build muscle right.

I should add terms and conditions to the website! I think they are in the background somewhere when someone purchases - but I never see that. Also "what happens after you purchase" to give peace of mind, and maybe close the sale a bit better.

I just wanted to get this through to you before I headed off to bed, so apologies that it's all a bit scrambled and hard to understand. Let me know if anything doesn't make sense.

Thanks so much!!

Taryn

Hi Taryn,

Just saw this!

I'll have a look over the changes now.

Sounds like you've made good progress on Setmore links too.
